### **SECTION 02 - HAZARDS IDENTIFICATION**

| Classification WHIMS / GHS      |   |  |  |  |  |  |
|---------------------------------|---|--|--|--|--|--|
| Classification Williams / Class | Serious eye damage/eye irritation - Serious eye damage category 1 |  |  |  |  |  |
|                                 | Liquides inflammables category 4                                  |  |  |  |  |  |
|                                 |   |  |  |  |  |  |
|                                 | Skin corrosion/irritat  | tion - Skin corrosion category 1   |  |  |  |  |
| Signal Word                     | DANGER  |  |  |  |  |  |
| Hazards statements (H)          | H227 Combustible li   | iquid.   |  |  |  |  |
|                                 | H314 Causes severe  | e skin burns and eye damage.   |  |  |  |  |
|                                 | H318 Causes seriou  | s eye damage.  |  |  |  |  |
| Precautionary statements (P)    | P210  | Keep away from heat/sparks/open flames/hot surfaces. — No smoking.   |  |  |  |  |
|                                 | P260  | Do not breathe dust / fume / gas / mist / vapours / spray.   |  |  |  |  |
|                                 | P264  | Wash the areas of the body that have been in contact with the product after handling.  |  |  |  |  |
|                                 | P280  | Wear protective gloves/protective clothing/eye protection/face protection.   |  |  |  |  |
|                                 | P301 + P330 + P3  | 31 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.  |  |  |  |  |
|                                 | P303 + P361 + P3  | 53 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing.<br>Rinse skin with water/shower.   |  |  |  |  |
|                                 | P304 + P340   | IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.   |  |  |  |  |
|                                 | P305 + P351 + P3  | 38 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.                      |  |  |  |  |
|                                 | P310  | Immediately call a POISON CENTER or doctor/physician.  |  |  |  |  |
|                                 | P321  | Specific treatment (see section 4 of the SDS and on this label).   |  |  |  |  |
|                                 | P363  | Wash contaminated clothing before reuse.   |  |  |  |  |
|                                 | P370 + P378   | In case of fire: Use water spray or alcohol-resistant foam, or dry powder or carbon dioxide for extinction.  |  |  |  |  |
|                                 | P403  | Store in a well-ventilated place.  |  |  |  |  |
|                                 | P405  | Store locked up.   |  |  |  |  |
|                                 | P501  | Dispose of contents/container in accordance with local / regional / national / international regulations or contact a specialist waste disposal company. |  |  |  |  |

# **SECTION 03 - COMPOSITION/INFORMATION ON INGREDIENTS**

| Ingrédients (Dénomination chimique / synonymes) | Numéro CAS et tout identificateur unique | Concentration (%) |
|---|--|-------------------|
| Acide acétique                                  | 64-19-7                                  | 38                |
| Acétate de sodium                               | 6131-90-4                                | 19                |
| Εαυ   | 7732-18-5                                | Balance           |

#### **SECTION 04 - FIRST AID MEASURES**

| Eye contact   | Wash eyes with large amounts of water for at least 15 minutes while holding eyelids apart to rinse eyes. If irritation persists, seek medical attention. |
|---|--|
| Skin contact  | Wash skin with plenty of water for at least 15 minutes. Remove soiled clothing. If irritation persists, seek medical attention.                          |
| Inhalation  | Move the unwell person to the fresh air. If breathing is difficult, give oxygen. Consult a physician.  |
| Ingestion   | If the person is conscious, give water to drink. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Consult a physician.     |
| Most important symptoms and effects (acute and delayed)         | Ref. section 11.   |
| Immediate medical attention and special treatment, if necessary | In case of medical consultation, keep this sheet available.  |
| General advice  | Show this safety data sheet to the doctor in attendance.   |

#### **SECTION 05 - FIREFIGHTING MEASURES**

| Flammability  | No  |
|---|---|
| Ignition conditions   | No longer flammable at this concentration. But remains combustible.   |
| Suitable extinguishing media                                  | Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.  |
| Unsuitable extinguishing media                                | Data not available.   |
| Hazardous combustion / decomposition products                 | Hazardous decomposition products formed under fire conditions. Carbon oxides Sodium oxides.   |
| Special fire and explosion hazards                            | May react violently with incompatible products (Ref Section 10).  |
| Special protective equipment and precautions for firefighters | Discard incompatible substances if this can be done without risk. Firefighters should be equipped with standard protective equipment, fireproof clothing, face mask, gloves, protective boots and, where appropriate, self-contained breathing apparatus. |

### **SECTION 06 - ACCIDENTAL RELEASE MEASURES**

| Methods and materials for         | Evacuate personnel to safe areas. Cut off all sources of ignition. Absorb the product with sand or           |
|-----------------------------------|--|
| containment and cleaning up /     | vermiculite. Dilute residues with water, clean and rinse. Ensure a good ventilation of the premises. Dispose |
| Personnal precautions, protective | of residues in a container for disposal of hazardous materials. When handling, wear suitable safety          |
| equipment                         | equipment. Use breathing apparatus if necessary. Avoid breathing vapours, mist or gas.                       |

### **SECTION 07 - HANDLING AND STORAGE**

| Store in a cool, dry place. Store in a well-ventilated area. Keep container tightly closed and store away from heat, water, moisture, and incompatible products. Keep away from sources of ignition - No smoking. Take measures to prevent the accumulation of electrostatic charges. Protect from the sun's rays. |
|--|
| Keep away from sources of ignition - No smoking. Avoid inhalation of vapour or mist. Wear personal protective equipment when handling. Always ensure good ventilation. Transport according to TDG (ref Section 14)   |

## **SECTION 08 - EXPOSURE CONTROLS/PERSONAL PROTECTION**

### Workplace control parameters

| Data source         | Sigma-Aldrich (Millipore Sigma)  |  |
|---------------------|--|--|
| Ventilation         | Fan.   |  |
| Respiratory         | If the permissible levels are exceeded, use a mechanical filter / cartridge against NIOSH vapors or a respirator with air supply.  |  |
| Gloves              | Handle with gloves.  |  |
| Eyes                | Safety goggles with safety shutters.   |  |
| Shoes               | Safety shoes.  |  |
| Clothing            | Labcoat. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.                                     |  |
| Engineering control | Have safety showers and eyewash stations in the workplace in case of an emergency and a ventilation system to maintain the level of concentrations in the air below the exposure limit values. |  |

#### **SECTION 09 - PHYSICAL AND CHEMICAL PROPERTIES**

| Physical state                        | Liquid.                   |
|---------------------------------------|---------------------------|
| Appearance                            | incolore-                 |
| Odour                                 | Odeur forte et irritante. |
| Odour threshold                       | Data not available        |
| рН                                    | 4.                        |
| Melting point / Freezing point        | Data not available        |
| Initial boiling point                 | Data not available        |
| Boiling range                         | Data not available        |
| Flash point                           | Data not available        |
| Evaporation rate                      | Data not available        |
| Flammability                          | No                        |
| Lower flammable / Explosive limit     | Data not available        |
| Upper flammable / Explosive limit     | Data not available        |
| Vapour pressure                       | Data not available        |
| Solubility                            | Soluble dans l'eau        |
| Vapour density                        | Data not available        |
| Relative density                      | 1.093g/ml                 |
| Partition coefficient water/n-octanol | Data not available        |
| Auto-ignition temperature             | Data not available        |
| Decomposition temperature             | Data not available        |
| Viscosity                             | Data not available        |

### **SECTION 10 - STABILITY AND REACTIVITY**

| Reactivity  | Non-reactive under normal conditions.   |
|---|---|
| Chemical stability  | Stable under recommended storage conditions.  |
| Possibility of hazardous reactions  | Stable under normal conditions.   |
| Conditions of instability<br>(Including sensitivity to shock /<br>static discharge / vibration) | Heat, flames, sparks. Avoid contact with incompatible materials and extreme temperatures.   |
| Incompatible material   | When pure, the products react with the following products: Strong oxidizing agents (chromic acid, nitric acid, peroxides, chlorates and perchlorates), bases, alcohols, carbonates, hydroxides, oxides, phosphates, 5-azidotetrazole, bromine pentafluoride, chromium trioxide, hydrogen peroxide, potassium permanganate, sodium peroxide, phosphorus trichloride, heat and moisture. Reacts violently in contact with fluorine and potassium nitrate. |
| Hazardous decomposition products  | Hazardous decomposition products formed under fire conditions. Carbon oxides Sodium oxides.   |

### **SECTION 11 - TOXICOLOGICAL INFORMATION**

### **ACETIC ACID, GLACIAL**

| Routes of exposure                        | Ingestion, inhalation, skin and eyes.  |
|---|--|
| Acute exposition effects / symptoms:      | By exposure route below.   |
| - Eyes                                    | Severe burns and destruction of ocular tissue that can lead to corneal ulceration and blindness.   |
| - Skin                                    | Severe burns and tissue ulcerations. May be fatal, if the extent of the burns is considerable.   |
| - Inhalation                              | Spasms, irritation and inflammation of the nose, throat and lungs. Edema of the larynx and bronchi. Chemical pneumonitis and pulmonary edema that can lead to death.   |
| Acute toxicity (Ingestion)                | Corrosion and ulceration of the mouth, throat, esophagus, stomach and abdominal wall. Dysphagia, kidney damage, bloody diarrhea and vomiting, diaphoresis, intense thirst, shock, circulatory collapse, unconsciousness, coma and can lead to death. |
| Chronic exposure effects / symptoms       | Burning sensation, conjunctivitis, hyperkeratosis, nervous disorders, chest pain, dental erosion, cough, dyspnea, laryngitis, headache, dizziness, diarrhea, asthenia, irritability, weight loss and loss of appetite, nausea and vomiting.          |
| DL50 (specify species and route of entry) | LD50 Oral - Rat - 3,530 mg/kg. LD50 Dermal - Rabbit - 1060 mg/kg   |
| CL50 (specify species and route of entry) | LC50 Inhalation - Rat -4h - 11.4 mg/L (4400 ppm - 4 h) LC50 Inhalation - Mouse- 1hre - 5620 ppm  |

#### **SODIUM ACETATE (TRIHYDRATE)**

| Routes of exposure                        | Ingestion, inhalation, skin and eyes.  |
|---|--|
| Acute exposition effects / symptoms:      | By exposure route below.   |
| - Eyes                                    | Irritation and tearing.  |
| - Skin                                    | Irritation.  |
| - Inhalation                              | Irritation of the mucous membranes and respiratory tract. Nervous disorders, dizziness, cough, dyspnea, headache, nausea and vomiting.                                 |
| Acute toxicity (Ingestion)                | Irritation of the mucous membranes. Nervous disorders, gastrointestinal disorders, cramps, enteritis, diarrhea, headache, dizziness, convulsions, nausea and vomiting. |
| Chronic exposure effects / symptoms       | Sensation de brûlure, troubles nerveux, vertiges, maux de tête, toux, dyspnée, laryngite, perte d'appétit, nausées et vomissements.                                    |
| DL50 (specify species and route of entry) | Data based on the anhydrous product: LD50 Oral - Rat - 3530 mg/kg. LD50 Dermal - Rabbit - >10 g/kg   |
| CL50 (specify species and route of entry) | LC50 Inhalation - Rat - 1 h - > 30,000 mg/m3. Data based on the anhydrous product:   |

#### **SUMMARY**

| Acute exposure effects / Symptoms:   | By exposure routes below.   |
|--------------------------------------|---|
| Ingestion                            | To our knowledge, the product has not been fully evaluated  |
| Inhalation                           | To our knowledge, the product has not been fully evaluated  |
| Skin                                 | To our knowledge, the product has not been fully evaluated  |
| Eyes                                 | To our knowledge, the product has not been fully evaluated  |
| Chronic exposure effects / Symptoms: | To our knowledge, the product has not been fully evaluated  |
| ETA Mix (Estimated Acute Toxicity)   | LD50 Oral: 5887mg/kg - Rat<br>LD50 Dermal: 2251 mg/kg - Rabbit<br>LC50 Inhalation: 24 mg/L - 4h - Rat |

## **SECTION 12 - ECOLOGICAL INFORMATION**

|                               | Acetic acid. Toxicity to fish: Semi-static test LC50 - Oncorhynchus mykiss: > 1,000 mg/l - 96 h Toxicity to daphnia and other aquatic invertebrates: EC50 - Daphnia magna: > 300.82 mg/l - 48 h Sodium acetate: LC50 - Lepomis macrochirus - 5000 mg/l - 24 h - static EC50 - Daphnia magna (Water flea) - > 1000 mg/L - 48h. CE50 Pseudomonas putida - 7200 mg/l - 18h |
|-------------------------------|---|
| Persistence and degradability | Biodegradability Result: - Readily biodegradable Soluble in water. Persistence is unlikely based on the information provided.   |
| Bioaccumulative potential     | Data not available.   |
| Mobility in soil              | Probable mobility in the environment due to its solubility in water.  |
| Other adverse effects         | Data not available.   |

### **SECTION 13 - DISPOSAL CONSIDERATIONS**

| Waste Disposal Method  | Comply with federal, state and local regulations regarding waste disposal. |
|------------------------|--|
| Contaminated Packaging | Dispose of as unused product.  |

#### **SECTION 14 - TRANSPORT INFORMATION**

| UN Number                  | 3265   |
|----------------------------|--|
| UN Proper shipping name    | LIQUIDE ORGANIQUE CORROSIF, ACIDE, N.S.A. (Acide acétique) |
| Transport hazard class(es) | 8 Corrosive substances                                     |
| Packing group              | III  |
| Limited quantity index     | 5L   |
| ERAP Index                 | -  |
| Special precautions        | 16   |

#### **SECTION 15 - REGULATORY INFORMATION**

| WHIMS CANADA | Serious eye damage/eye irritation - Serious eye damage category 1 |
|--------------|---|
|              | Liquides inflammables category 4                                  |
|              | Skin corrosion/irritation - Skin corrosion category 1             |

#### **SECTION 16 - OTHER INFORMATION**

#### **Further information**

The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. It does not represent any guarantee of the properties of the product. Laboratoire MAT Inc. shall not be held liable for any damage resulting from handling or from contact with the above product.
