SAFETY DATA SHEET

SECTION 01 - PRODUCT AND COMPANY IDENTIFICATION

| Product Identifier | | | Product Use | | |
|--|---------------|---|--------------------|-------------------|--------------|
| ZINC (GRANULES) | | | Laboratory use | | |
| Chemical formula | | | | Product code | Molar weight |
| Zn | | | | ZR-0600; ZR-0100 | 65,37 |
| Chemical name / Commercial nam Zinc métallique, Zinc me | | | | | |
| Supplier's name | | | Address-Street | | |
| Laboratoire MAT | | | 610, Adanac Street | | |
| City | | Province | | | |
| Québec | | Québec | | | |
| Postal code | Internet | | Phone number | | |
| G1C 787 | www.labmat.co | m | 418-660-8666 | / 800-890-8666 | |
| Emergency phone CANUTEC: 613-996-6666 | | CENTRE ANTI-POISON DU QUÉBEC 800-463-5060 | | | |
| Date SDS | | SDS Prepared by | | E-Mail | |
| 8/18/2020 | | Laboratoire MA | T | labmat@labmat.com | |

SECTION 02 - HAZARDS IDENTIFICATION

| Classification WHIMS / GHS | Not a hazardous substance according to WHMIS 2015 | |
|----------------------------|---|---|
| Other dangers | | NFPA (Risk: 0=No risk; 1=Slight; 2=Moderate; 3=Signifiant; 4=Extreme) |
| | Health Fire Reactivity Special danger | 1 1 0 |

SECTION 03 - COMPOSITION/INFORMATION ON INGREDIENTS

| Ingrédients (Dénomination chimique / synonymes) | Numéro CAS et tout identificateur unique | Concentration (%) |
|---|--|-------------------|
| Zinc | 7440-66-6 | <=100 |

SECTION 04 - FIRST AID MEASURES

| Eye contact | Wash eyes with large amounts of water for at least 15 minutes while holding eyelids apart to rinse eyes. If irritation persists, seek medical attention. |
|---|--|
| Skin contact | Wash skin with plenty of water for at least 15 minutes. Remove soiled clothing. If irritation persists, seek medical attention. |
| Inhalation | Move the unwell person to the fresh air. If breathing is difficult, give oxygen. Consult a physician. |
| Ingestion | If the person is conscious, rinse the mouth with water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Consult a physician. The use of EDTA as an antidote may be recommended, but first notify the medical staff. |
| Most important symptoms and effects (acute and delayed) | Ref. section 11. |
| Immediate medical attention and special treatment, if necessary | In case of medical consultation, keep this sheet available. |
| General advice | Show this safety data sheet to the doctor in attendance. |

SECTION 05 - FIREFIGHTING MEASURES

| Flammability | No |
|---|---|
| Ignition conditions | Dusts or fine powders can ignite spontaneously when exposed to moisture. |
| Suitable extinguishing media | Use only a class D fire extinguisher to extinguish the fire. Flames can also be smothered with sand or soda ash. |
| Unsuitable extinguishing media | Do not use water. |
| Hazardous combustion / decomposition products | Hazardous decomposition products formed under fire conditions Zinc/zinc oxides. |
| Special fire and explosion hazards | In contact with acids, releases hydrogen: a flammable gas. Dust may form explosive mixtures with air. May react violently with incompatible products (Ref Section 10). |
| Special protective equipment and precautions for firefighters | Discard incompatible substances if this can be done without risk. Firefighters should be equipped with standard protective equipment, fireproof clothing, face mask, gloves, protective boots and, where appropriate, self-contained breathing apparatus. |

SECTION 06 - ACCIDENTAL RELEASE MEASURES

| Methods and materials for | Evacuate personnel to safe areas. Cut off all sources of ignition. Pick up with a broom, taking care not to |
|-----------------------------------|---|
| containment and cleaning up / | scatter dust. Dispose of residues in a container provided for the disposal of hazardous materials. When |
| Personnal precautions, protective | handling, wear appropriate safety equipment. Avoid dust formation. Avoid breathing vapours, mist or |
| equipment | gas. Ensure adequate ventilation. Do not let product enter drains. |

SECTION 07 - HANDLING AND STORAGE

| Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Keep container tightly closed and store away from heat, water, moisture, and incompatible products. |
|--|
| Provide appropriate exhaust ventilation at places where dust is formed. Avoid dust formation. Avoid contact with the skin, eyes and clothes. Avoid ingestion and inhalation. Wear personal protective equipment when handling. Always ensure good ventilation. Transport according to TDG (ref Section 14) |

SECTION 08 - EXPOSURE CONTROLS/PERSONAL PROTECTION

Workplace control parameters

| Components | CAS- No. | Value | Control parameters | Basis |
|------------|---------------|----------------------|-----------------------|---|
| | 7440- 66-6 | No data available | TLV, TWA, STEL | Canada. Alberta, Occupational Health and Safety Code (table 2: OEL) |
| | | No data available | TLV, TWA, STEL | Canada. British Columbia OEL |
| | | No data available | | Québec. Regulation respecting occupational health and safety, Schedule 1, Part 1: Permissible exposure values for airborne contaminants |

| Ventilation | Fan. |
|---------------------|--|
| Respiratory | If the permissible levels are exceeded, use a mechanical filter / cartridge against NIOSH vapors or a respirator with air supply. |
| Gloves | Handle with gloves. |
| Eyes | Safety goggles with safety shutters. |
| Shoes | Safety shoes. |
| Clothing | Labcoat. |
| Engineering control | Have safety showers and eyewash stations in the workplace in case of an emergency and a ventilation system to maintain the level of concentrations in the air below the exposure limit values. |

SECTION 09 - PHYSICAL AND CHEMICAL PROPERTIES

| Physical state | Solid. |
|---------------------------------------|--|
| Appearance | Granules gris foncé. Granulométrie 20 mesh. |
| Odour | Donnée non disponible. |
| Odour threshold | Data not available |
| рН | Donnée non-disponible. |
| Melting point / Freezing point | 419.5°C |
| Initial boiling point | 908°C |
| Boiling range | Data not available |
| Flash point | Data not available |
| Evaporation rate | Data not available |
| Flammability | No |
| Lower flammable / Explosive limit | Data not available |
| Upper flammable / Explosive limit | Data not available |
| Vapour pressure | 1.3 mbar @ 478°C. |
| Vapour density | Data not available |
| Relative density | 7.14g/cm ³ |
| Solubility | Insoluble dans l'eau. Soluble dans les acides. |
| Partition coefficient water/n-octanol | Data not available |
| Auto-ignition temperature | 460°C |
| Decomposition temperature | Data not available |
| Viscosity | Data not available |

SECTION 10 - STABILITY AND REACTIVITY

| Reactivity | Non-reactive under normal conditions. Material may react violently with water. | | |
|---|---|--|--|
| Chemical stability | Stable under recommended storage conditions. Reacts with water. | | |
| Possibility of hazardous reactions | Reacts violently with water. Avoid dust formation. May form combustible dust concentrations in the air. In contact with an acid, releases hydrogen, a flammable gas. | | |
| Conditions of instability (Including sensitivity to shock / static discharge / vibration) | Exposure to moist air or water. The presence of water or a source of moisture near this product can generate enough heat to ignite combustible materials nearby. Avoid contact with incompatible materials. | | |
| Incompatible material | Strong acids and bases, amines, chlorates, chlorides, chlorine, carbon disulfide, fluorine, hydroxylamine, alkali metals, nitrates, chromic oxide, chlorinated solvents, sulfur , water and humidity. | | |
| Hazardous decomposition products | Hazardous decomposition products formed under fire conditions Zinc/zinc oxides. | | |

SECTION 11 - TOXICOLOGICAL INFORMATION

ZINC (GRANULES) -20 MESH

| Routes of exposure | Ingestion, inhalation, skin and eyes. |
|---|---|
| Acute exposition effects / symptoms: | By exposure route below. |
| - Eyes | Irritation. To our knowledge, the product has not been fully studied. |
| - Skin | Irritation. To our knowledge, the product has not been fully studied. |
| - Inhalation | Metal fume fever results from inhalation of fumes of zinc oxide produced when zinc is heated to high temperatures, such as during welding, metal cutting, or smelting zinc alloys. Nausea and vomiting, chills and fever, muscular aches and pains, and weakness. To our knowledge, the product has not been fully studied. |
| Acute toxicity (Ingestion) | Irritation of the mucous membranes. Acute ingestion of 2g or more of zinc produces gastro-intestinal irritation and vomiting. To our knowledge, the product has not been fully studied. |
| Chronic exposure effects / symptoms | Burning sensation and irritation. Continual excessive Zinc intake results in reductions in serum levels of copper (hypocupremia), sideroblastic anemia, and neutropenia. To our knowledge, the chemical, physical and toxicological properties have not been fully investigated. |
| DL50 (specify species and route of entry) | LD50 Oral - Rat - 630 mg/kg. LD50 Dermal - Data not available. |
| CL50 (specify species and route of entry) | LC50 - Inhalation - Data not available. |

SECTION 12 - ECOLOGICAL INFORMATION

Available ecological information No

SECTION 13 - DISPOSAL CONSIDERATIONS

| Waste Disposal Method | Offer surplus and non-recyclable solutions to a licensed disposal company. |
|------------------------|--|
| Contaminated Packaging | Dispose of as unused product. |

SECTION 14 - TRANSPORT INFORMATION

| UN Number | N/R |
|----------------------------|-----|
| UN Proper shipping name | |
| Transport hazard class(es) | |
| Packing group | |
| Limited quantity index | |
| ERAP Index | |
| Special precautions | |

SECTION 15 - REGULATORY INFORMATION

WHIMS CANADA

Not a hazardous substance according to WHMIS 2015

SECTION 16 - OTHER INFORMATION

Further information

The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. It does not represent any guarantee of the properties of the product. Laboratoire MAT Inc. shall not be held liable for any damage resulting from handling or from contact with the above product.
